

D7 V1.4 upgrading pack

Dear Customer,

This upgrading pack would make your V1.3, V1.2, V1.1 as much close to V1.4 as possible. Although it can not make your printer exactly the same to V1.4. It can improve your current printer at most.

If you have V1.1 and V1.2, you would need to get V1.3 upgrading pack to enable sufficient cooling.

1		<p>Embrassing couple ensure the better concentricity.</p>
2		<p>The machining building plate with tolerance $\pm 0.03\text{mm}$ to ensure flatness. And Aluminum plate has good adhesive ability.</p>
