

WANHAO STANDARD RESIN LIST REV.A

Technical Data

Ash	< 0.2%	Acidity	< 0.31mg KOH/g
Shore Hardness	75D	Water Content	< 0.23%
Experimental Shrink	3.3%	Surface Tension	36.5 Dynes/cm
Uncolored Reactivity	423mJ/cm ²	Tensile Strength	9100 PSI, 6% Elongation
Viscosity	@20 : 90CP	Glass Transition Temperature	104
Density	@25 : 1.1g/cm ³	Packing	250ml/500ml/1000ml

1000ML Packing

CLEAR Part No. 0308060 1000ML

Is our classic WANHAO Natural color. It's unpigmented resin, and is a clear color with light yellow. It's the go to resin color for thousands of 3D printers worldwide. Can't risk getting caught out here with a missed color choice? Go clear!

ORANGE Part No. 0308017 1000ML

This is a new classic, one of the most blazon colors in the world. Safety orange! It's a bright traffic cone, safety vest orange and catches the eye any way you look at it.

YELLOW Part No. 0308064 1000ML

This resin was custom suggested to our specifications and is a beautiful Yellow color. You know the yellow color of a banana? It's very close to that color!

WHITE Part No. 0308058 1000ML

White, like the driven snow. The possibilities are truly endless. This is a noticeably brighter shade than the Resin clear. With this new level of extreme brightness, you'll feel like you've been given a new lease on life. You'll have to wear shades.

GREEN Part No. 0308061 1000ML

This bright neon green WANHAO Resin is custom suggested to us and ranks as our all time brightest color. Bright neon green, and even brighter and more popping under a UV or black light. Looks cool under blue LED stripes as well!

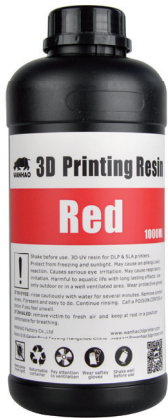

BLACK Part No. 0308059 1000ML

Black A worldwide classic, this resin it's a particularly luxurious shade, think rich Swissmilk chocolate or decadent café au lait. Or something painted brown.

SAFETY: For additional information please see the Material Safety Data Sheet.

STORAGE: Store in a tightly closed, opaque container in a properly vented storage area under dry conditions away from heat, sparks, and open flames. Shelf-life is 12 months from receipt.

RED

Part No.0308063
1000ML

Transparent RED resin is an extremely awesome polymer for many reasons.

GRAY

Part No.0308058
1000ML

Bright Gray is one of fresh new color for 2017 it is bright than normal Gray.

500ML Packing

CLEAR

Part No. 0308090
500ML

Is our classic WANHAO Natural color.It's unpigmented resin, and is a clear color with light yellow.It's the go to resin color for thousands of 3D printers worldwide. Can't risk getting caught out here with a missed color choice? Go clear!

ORANGE

Part No. 0308087
500ML

This is a new classic, one of the most blazon colors in the world. Safety orange! It's a bright traffic cone, safety vest orange and catches the eye any way you look at it.

YELLOW

Part No. 0308094
500ML

This resin was custom suggested to our specifications and is a beautiful Yellow color. You know the yellow color of a banana? It's very close to that color!

WHITE

Part No.0308088
500ML

white, like the driven snow. The possibilities are truly endless.This is a noticeably brighter shade than the Resin clear. With this new level of extreme brightness, you'll feel like you've been given a new lease on life. you'll have to wear shades.

GREEN

Part No.0308091
500ML

This bright neon green wanhao Resin is custom suggested to us and ranks as our all time brightest color. Bright neon green, and even brighter and more popping under a UV or black light. Looks cool under blue LED stripes as well!

BLACK

Part No. 0308089
500ML

Black A worldwide classic, this resin It's a particularly luxurious shade, think rich Swissmilk chocolate or decadent café au lait. Orsomething painted brown.

SAFETY: For additional information please see the Material Safety Data Sheet.

STORAGE:Store in a tightly closed, opaque container in a properly vented storage area under dry conditions away from heat, sparks, and open flames. Shelf-life is 12 months from receipt.

RED
Part No.0308093
500ML

Transparent RED resin is an extremely awesome polymer for many reasons.

GRAY
Part No.0308092
500ML

Bright Grey is one of fresh new color for 2017 it is bright than normal Grey.

250ML Packing

CLEAR
Part No. 0308082
250ML

Is our classic WANHAO Natural color.It's unpigmented resin, and is a clear color with light yellow.It's the go to resin color for thousands of 3D printers worldwide. Can't risk getting caught out here with a missed color choice? Go clear!

ORANGE
Part No. 0308087
250ML

This is a new classic, one of the most blazon colors in the world. Safety orange! It's a bright traffic cone, safety vest orange and catches the eye any way you look at it.

YELLOW
Part No. 0308086
250ML

This resin was custom suggested to our specifications and is a beautiful Yellow color. You know the yellow color of a banana? It's very close to that color!

WHITE
Part No.0308080
250ML

white, like the driven snow. The possibilities are truly endless.This is a noticeably brighter shade than the Resin clear. With this new level of extreme brightness, you'll feel like you've been given a new lease on life. you'll have to wear shades.

GREEN
Part No.0308083
250ML

This bright neon green wanhao Resin is custom suggested to us and ranks as our all time brightest color. Bright neon green, and even brighter and more popping under a UV or black light. Looks cool under blue LED stripes as well!

BLACK
Part No. 0308081
250ML

Black A worldwide classic, this resin It's a particularly luxurious shade, think rich Swissmilk chocolate or decadent café au lait. Orsomething painted brown.

RED
Part No.0308085
250ML

Transparent RED resin is an extremely awesome polymer for many reasons.

GRAY
Part No.0308084
250ML

Bright Grey is one of fresh new color for 2017 it is bright than normal Grey.

SAFETY: For additional information please see the Material Safety Data Sheet.

STORAGE:Store in a tightly closed, opaque container in a properly vented storage area under dry conditions away from heat, sparks, and open flames. Shelf-life is 12 months from receipt.
