ABS Filaments

Part No. 01. ABS Natual

This is our classic wanhao ABS Natural, now custom-extruded for us in the 1.75mm filament format. It's unpigmented ABS, and is a milky white color. It's the go-to filament color for thousands of 3D printers worldwide. Can't risk getting caught out there with a missed color choice? Go natural!

Quan

Part No. 02. ABS White

white, like the driven snow. Or freshly pasteurized vitamin D milk. Or a freshly-whitewashed fence. The possibilities are truly endless. This is a noticeably brighter shade than the ABS Natural. With this new level of extreme brightness, you'll feel like you've been given a new lease on life. you'll have to wear shades.

Quan

Part No. 03 ABS Silver

one of a whole new wave of color from wanhao! We're pretty excited about this one. Whether you're printing silver jaguars, silver foxes, silverfish quicksilver, or just a gray wolf or two, this is the color you've been waiting for.

Quan

Part No. 04 ABS Slate Grey

Slate Gray is just one of fresh new colors for March 2013

Quan

Part No. 05 ABS Pink

This saturated Magenta color ABS has a delicious "fruit punch" color to it- its a purple-pink stunner, and we think it's the most delightful color in 3D printing, by far.

Quan

Part No. 06 ABS Purple

This saturated Magenta color ABS has a delicious "fruit punch" color to it- its a purple-pink stunner, and we think it's the most delightful color in 3D printing, by far.

Quan

Part No. 07 ABS Orange

This is a new classic, one of the most blazon colors in the world. Safety orange! It's a bright traffic-cone, safety vest orange and catches the eye any way you look at it.

Quan

Part No. 08 ABS Red

This plastic was custom extruded to our specifications and is a wild bright red color that pops under sunlight and GLOWS under black (UV) light. Blue LEDs make this stuff look awesome as well! We took our time to get this item right and it is a bright red color, with a special fluorescent character. A user favorite!

Quan

Part No. 09 ABS Nuclear Green

This bright neon green wanhao ABS is custom-extruded for us and ranks as our all-time brightest color. It has a great UV reactive ingredient so in sunlight this stuff is radiant, like the nuclear fuel Homer is always mishandling at the power plant. Bright neon green, and even brighter and more popping under a UV or black light. Looks cool under our blue LED stripes as well!

Quan

Part No. 10 ABS Dark Green

This plastic was custom extruded to our specifications and is a beautiful green color. This filament is a hearty, camping stove forest green. It's the color of the rugged outdoors!

Quan

Part No. 11 ABS Yellow

This plastic was custom extruded to our specifications and is a beautiful Yellow color. You know the yellow color of a banana? It's very close to that color!

Quan

Part No. 12 ABS Blue

This is our classic wanhao ABS Blue, now custom extruded for us in the 1.75mm filament format. It's our classic blue filament in the new 1.75mm format!
